Projects

- **Intranet For BIT Noida** **06 June, 2023 – 04 July 2023**
Admin can upload project report, course structure, syllabus, events, notices, timetable, e-book etc, and all other intranet viewer. I led the team.
Team Size: 3
Key Skills: PHP
- **Employee Management System**
The main objective of the projects is to manage EMPLOYEE'S records. So they don't need to manage the data manually.

Internship

- **Sparks Foundation Company- Web Designing Internship** **01Mar-05May2023**
Create a website called basic banking system where user can transfer their money (offline mode).
Key Skills: Html,css,javascript

Academic and Extracurricular Achievements

- **Hackathon - BIT Noida**
Key Skills: python, BeautifulSoup4, Selenium, Figma
Our team was the winner of this hackathon. Our subject in Hackathon was Web scrapping. So we made V-raag Web Scraper which can scrap the data of facebook, instagram and whatsapp and one bonus option which can provide the facility of unlimited forwarding of whatsapp messages and automatically saving the whatsapp group member's mobile number in just one click.

- **Our team participated in hackathon held in Maharishi University Of Information Technology Noida.**

Our project was Automated Farming(IOT Project) . For machine end we used Raspberry pi,some sensors, motors etc for hardware, and we used python, Rpi.GPIO for operating the machine and mysql for database, and for user-end we used php.We had created website for farmers so they don't need to go to farm for irrigation.

- **Our team participated in BVICAM hackathon held in Bharati Vidyapeeth Delhi.**
Our project was Whatsaap Automation where we used python and selenium.
- **Our team participated in BIT-TECHWIZ 2.0 held in BIT Noida and we won the second prize in that competition.**
